VICTORY FOR VICTORY LOAN

It will not be the fault of the peo-le of Canada if the Government is nable to successfully bring the coun-ry through the period of demobiliza-ion and reconstruction. They have to only given it all the money it sked for, but they have more than numbed that asked for but they have more than doubled that amount. The Government asked for \$300,000,000, and the country responded by giving it \$673,000,000. All the Provinces responded handsomely. Hamilton did excellently, contributing over \$23,000,000. All classes parover \$20,000,000. All classes par-licipated in the loan, the small in-vestor adding his quota to the amount Another matter for con-gratulation is the fact that the loan was raised without the added induc-ment of making it non-taxable, as all the other loans were. Sir Thomas

enough for patriotism when he made the others non-tanble.

At a mass meeting in Toronto last high. Sir Herry Drayton, the Pinance Minister, declared that "Our dollars are going to be doubled. The world's markets are at our doors. To-day is Canada's and we can make to-morrow Canada's too," and he asserted that "This is our final windup, the final making good of Canada's pleages, the final chapter of our war effort." Dose this mean that the cown of the declaration of the country upon a firm financial basis, able to pay its debts and carry on the work of the Government—that there will be no more victory loans? Mr. Frank A. Vanderlip, an American financier and at one time assistant to the United States Treasurer, sophe before the Canadian and Empire Clubs in Toronto yesterday. In

pecied that it will be sufficient to put the country on its feet again. But there will be other learn, no doubt, aithough it should be the ob-ject of the Government to endeaver to rake as much of the needed revenue by taxation as possible. The country is looking to the Govern-ment for economical management of the affairs of the Tamathem. the affairs of the Dominion. It must meet the electors some day, and if its record be extravagant it will go down to defeat, and extravagant it has been for many moons.

THE CITY AND THE STREET
